

# TRANS CARE BC

[WWW.PHSA.CA/TRANSCARE](http://www.phsa.ca/transcare)

## VISION

A British Columbia where people of all genders are able to access gender-affirming health care, and live, work and thrive in their communities.

## GUIDING PRINCIPLES

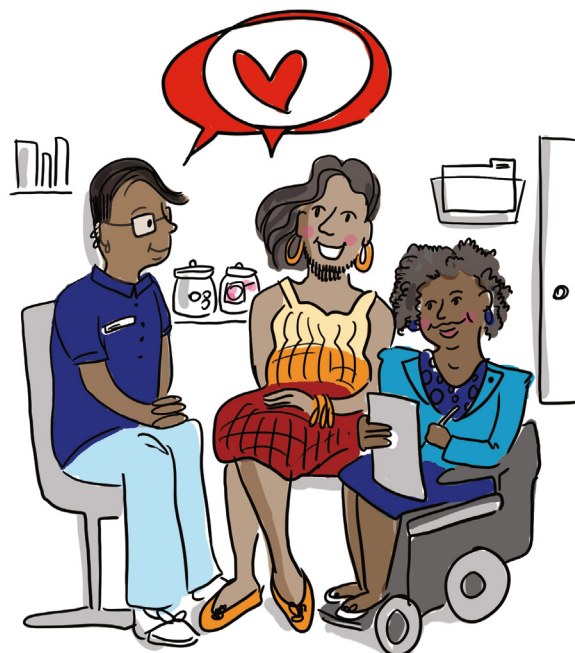

- Gender-affirming care inclusive of non-binary identities
- Accountable and transparent
- Anti-oppressive and trauma informed
- Collaborative
- Person-centered care
- Equitable and accessible

### PEER AND COMMUNITY SUPPORT

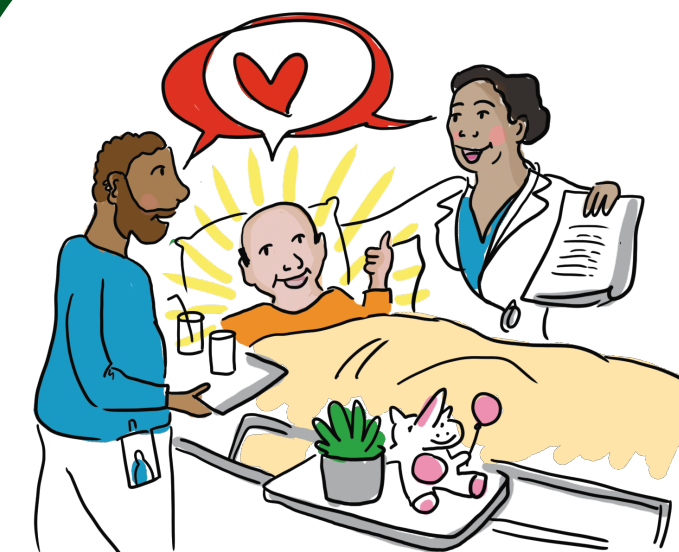

Equitable access to information, resources and support

### PRIMARY CARE

Equitable access to gender-affirming and supportive primary health care

### SURGERY AND MEDICAL SUPPORT

Model of care and services based on clients' gender-affirming goals and informed consent

## ENABLING STRATEGIES

Best practice and clinical guidelines, practice support resources, strengths-based framework

Engagement with First Nations and Two-Spirit people

Evaluation, research, health policy

Technology platforms (web, telehealth, electronic medical record)

Education for clients, families/friends, providers, community
